

Thank you for choosing Memories INC to create your Slideshow. These Terms of Service govern your use of Memories INC's service. You must be 18 years of age or older to use our services.

1. When creating an account you must provide true, accurate, current and complete information. If the information that was given changes over the course of the time in which you are using our services, you agree to notify Memories INC of these changes. With the exception of paragraph 8 of this Terms of Service, all materials sent to Memories INC will be returned to you. This includes all photos, film or digital, all slides, videos, documents and CD's.
2. Memories INC produces multimedia slideshows / video montages using your photographs, digital photos, slides, negatives, video clips, documents, and subject to this agreement, music you provide to us. Your photos are scanned, enhanced and organized in a slideshow that is set to either your music of your choice or to the royalty-free stocked music of our choice. The slideshow / video album is then recorded onto a DVD using DVD-R or DVD+R specifications that can be played in most DVD players. It is your (the customer's) responsibility to make sure that your DVD player is compatible before you place your order. We cannot accept returns or cancel orders after they have been processed. You must provide the information for your slideshow including but not limited to: written titles to be included in the show, the order of music and corresponding photographs, music titles, and any other special requests.
3. If your purchase is a gift you must specify this so that representatives of Memories INC do not inadvertently discuss the show with the intended recipient, should we need to contact you. You may include as many images as you would like, but should the total time exceed the limit of the DVD, the slideshow may be recorded onto multiple DVD's. Quality of your slideshow can only be guaranteed if the photos are scanned at 300dpi or better for images 3x5 or larger, and 600dpi or better for images smaller than 3x5 using RGB colour settings and a 100% quality JPG setting or other non-compressed image format. You will be notified in advance to the slideshow being created if Memories INC determines that your scanned images are not suitable for production. You will then have the option to cancel your order or to rescan the pictures or send us the pictures to be scanned. Or you can authorise Memories INC to use the images "as is" with your understanding that we will not be able to guarantee the quality of the final product. Should you choose to cancel the order you are still liable to pay all shipping, handling and return charges.
